

## 2-PORT USB KVM SWITCH

### **COST-EFFECTIVE**

Eliminate the need for multiple monitors, keyboards, pointing devices, and speakers

### **EXTENDED FUNCTIONALITY**

Microprocessor emulation allows users to boot and manage two computer systems simultaneously

### **SHARED AUDIO**

Full stereo audio support allows two systems to share one set of speakers

### **CONVENIENT ACCESS AND CONTROL**

The D-Link KVM-222 2-port KVM (Keyboard, Video and Mouse) switch allows a user to control two PCs from a single keyboard, mouse, and VGA monitor console. Audio support allows the two connected PCs to share a set of speakers via a standard 3.5 mm stereo jack.

### **SAVE MONEY, SAVE SPACE**

If you have two computer systems which are often used simultaneously or even intermittently, the KVM-222 helps you save money by eliminating the need for a second keyboard, monitor, and mouse. Free up precious desktop space by using the same console setup to manage both systems. Maximize your screen real estate by connecting a single large monitor, instead of two smaller monitors. The KVM-222 supports VGA, SVGA and Multi-Sync monitors at resolutions of up to 2048 x 1536 with refresh rates of up to 72 Hz.

### **ADVANCED KVM FUNCTIONS**

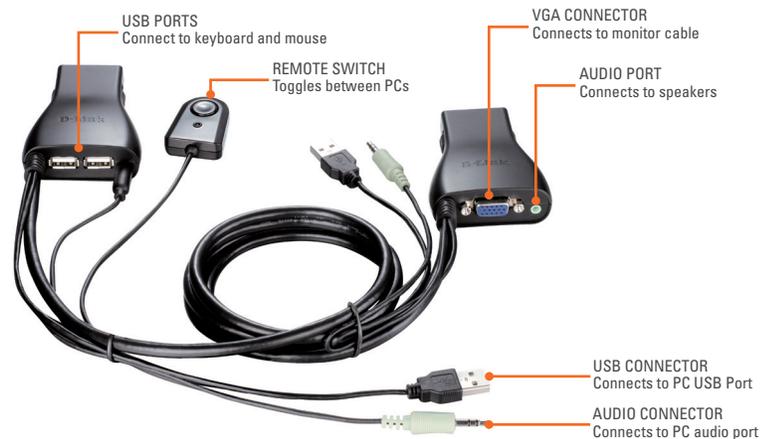

The KVM-222 utilizes advanced microprocessor emulation to intelligently manage each KVM port. PCs can be booted-up simultaneously without faults or keyboard errors. Auto scan, audible feedback, and keyboard "hot keys" make the KVM-222 simple to use and manage. Two sets of cables are directly built into the KVM switch for fast and straightforward installation. A convenient wired remote control button simplifies the switching process even further, allowing you to place the switch in a convenient location. No additional cables or adapters are required. In addition, the KVM switch also supports Microsoft IntelliMouse®.

## WHAT THIS PRODUCT DOES

The KVM-222 2-port KVM (Keyboard, Video and Mouse) switch allows a user to control two PCs from a single keyboard, mouse, and VGA monitor console. Audio is also supported, allowing the two connected PCs to share a set of speakers via a standard 3.5 mm stereo jack.

## FEATURES

- Stereo audio support
- Remote toggle button
- Supports multiple monitor resolutions
- Microsoft IntelliMouse® support

## TECHNICAL SPECIFICATIONS

### PORTS

- 2 x PC Port
- 2 x USB Port

### CABLE LENGTH

- KVM Cable - 1.8 m

### PORT SELECTION

- Remote Control Button
- Hotkey commands
- AP Selection

### CABLE CONNECTION (PC1 & PC2)

- PC
  - USB Type A Male
- Monitor
  - HDB -15 Male
- Audio
  - 3.5 mm Mini-Phone Stereo Jack Male (green)

### KVM CONNECTOR

- Keyboard
  - 1 x USB Type A Female
- Mouse
  - 1 x USB Type A Female
- Monitor
  - 1 x HDB-15 Female (Blue)
- Audio
  - 1 x 3.5 mm Mini-Phone Stereo Jack Female (green)
- Remote control
  - 1 x 2.5 mm 4 Pin Phone Jack (Female)

### OPERATING VOLTAGE

- 5 V DC

### RESOLUTION

- 2048 x 1536 (QXGA)
- 1920 x 1440 (WUXGA)

### SYSTEM REQUIREMENTS

- Windows 2000 / XP / Vista / 7
- Linux
- Mac OS (10.3 and higher)

### WEIGHT

- 193 g

### DIMENSIONS (L x W x H)

- 78 x 56 x 21.5 mm
